To our Valued Customers

Subject: Sentry Building Innovations Price Increase Notice

With the current world situation of increasing resin prices, significant increased transportation/freight costs, as well as other raw material increases, we find it necessary to implement a price increase effective April 20, 2026 at 6 - 9% on all products.

The increase will apply to all orders shipped after April 20th. We will provide new itemized pricing within the next 2 weeks. Current global tensions could cause and require further increases either in price or in the form of fuel surcharges.

We value and appreciate your business and hope you understand the necessity of this increase.

Sincerely,

Sentry Building Innovations
